

Dette er en digital kopi af en bog, der har været bevaret i generationer på bibliotekshylder, før den omhyggeligt er scannet af Google som del af et projekt, der går ud på at gøre verdens bøger tilgængelige online.

Den har overlevet længe nok til, at ophavsretten er udløbet, og til at bogen er blevet offentlig ejendom. En offentligt ejet bog er en bog, der aldrig har været underlagt copyright, eller hvor de juridiske copyrightvilkår er udløbet. Om en bog er offentlig ejendom varierer fra land til land. Bøger, der er offentlig ejendom, er vores indblik i fortiden og repræsenterer en rigdom af historie, kultur og viden, der ofte er vanskelig at opdage.

Mærker, kommentarer og andre marginalnoter, der er vises i det oprindelige bind, vises i denne fil - en påmindelse om denne bogs lange rejse fra udgiver til et bibliotek og endelig til dig.

Retningslinjer for anvendelse

Google er stolte over at indgå partnerskaber med biblioteker om at digitalisere offentligt ejede materialer og gøre dem bredt tilgængelige. Offentligt ejede bøger tilhører alle og vi er blot deres vogtere. Selvom dette arbejde er kostbart, så har vi taget skridt i retning af at forhindre misbrug fra kommerciel side, herunder placering af tekniske begrænsninger på automatiserede forespørgsler for fortsat at kunne tilvejebringe denne kilde.

Vi beder dig også om følgende:

- Anvend kun disse filer til ikke-kommercielt brug
Vi designede Google Bogsøgning til enkeltpersoner, og vi beder dig om at bruge disse filer til personlige, ikke-kommercielle formål.
- Undlad at bruge automatiserede forespørgsler
Undlad at sende automatiserede søgninger af nogen som helst art til Googles system. Hvis du foretager undersøgelse af maskinoversættelse, optisk tegngenkendelse eller andre områder, hvor adgangen til store mængder tekst er nyttig, bør du kontakte os. Vi opmuntrer til anvendelse af offentligt ejede materialer til disse formål, og kan måske hjælpe.
- Bevar tilegnelse
Det Google-"vandmærke" du ser på hver fil er en vigtig måde at fortælle mennesker om dette projekt og hjælpe dem med at finde yderligere materialer ved brug af Google Bogsøgning. Lad være med at fjerne det.
- Overhold reglerne
Uanset hvad du bruger, skal du huske, at du er ansvarlig for at sikre, at det du gør er lovligt. Antag ikke, at bare fordi vi tror, at en bog er offentlig ejendom for brugere i USA, at værket også er offentlig ejendom for brugere i andre lande. Om en bog stadig er underlagt copyright varierer fra land til land, og vi kan ikke tilbyde vejledning i, om en bestemt anvendelse af en bog er tilladt. Antag ikke at en bogs tilstedeværelse i Google Bogsøgning betyder, at den kan bruges på enhver måde overalt i verden. Erstatningspligten for krænkelse af copyright kan være ganske alvorlig.

Om Google Bogsøgning

Det er Googles mission at organisere alverdens oplysninger for at gøre dem almindeligt tilgængelige og nyttige. Google Bogsøgning hjælper læsere med at opdage alverdens bøger, samtidig med at det hjælper forfattere og udgivere med at nå nye målgrupper. Du kan søge gennem hele teksten i denne bog på internettet på <http://books.google.com>

PREFACE.

THIS volume contains a Catalogue of the Coins of Ancient Italy in the British Museum, arranged according to the system of Eckhel.

The metal of each coin is stated, and its size, in inches and tenths. The weight is given in English grains of all gold and silver coins and of all copper coins of known denominations. Tables for converting grains into French grammes and inches into millimètres, as well as into the measures of Mionnet's scale, are placed at the end of the volume. (Pp. 430, 432.)

The coins of the class of *Æs Grave* not engraved in the "*Æs Grave del Museo Kircheriano*," and those of all other classes not engraved in Carelli's "*Numorum Italiæ Veteris Tabulæ*," have been for the most part engraved on wood, and each illustration placed after the corresponding description.

I have to acknowledge the valuable assistance I have received, in the preparation and revision of the Catalogue, from Mr. Head, Assistant Keeper, and Mr. Gardner, Assistant, in the Department of Coins and

Medals. I am also indebted to Mr. Vaux, for the aid which he rendered me when he was Keeper of the Department of Coins, in all matters connected with the illustrations.

The next volume, containing the Coins of Sicily, is in progress.

REGINALD STUART POOLE.
